## PROFESSIONAL SUMMARY

---

Proactive and determined computer science graduate building expertise in data analytics, database development, and data science. Passionate about delivering a meaningful impact using data based critical decision-making.

## SKILLS

---

**Technical:** Power BI, Tableau, Python, Advanced Excel, SQL, R, EDI, ETL, MongoDB, Oracle, Teradata, Snowflake, Jira, C++, GAS, Java, AWS, ReactJS, MySQL, NodeJS, Front-End, Back-End, GitHub, SAlFe, MSOffice apps, Golang.  
**Soft Skills:** Analytical Thinking, Critical Problem Solving, Meeting Timelines, Reliable, Perform Under Pressure, Creative, Empathetic, Professional Communication, Presenting, Eager to Learn, Team Player.

## PROFESSIONAL EXPERIENCE

---

**Purdue University – Indianapolis, IN**

**Computer Science Course TA**

**January 2023 – May 2023**

- Taught computer science to undergrad students and guided course direction and assignments
- Managed online classroom sessions, hosted online office hours, and provided grading and feedback

**Elevance Health (Formerly Anthem BCBS) – Indianapolis, IN**

**Data Analyst Intern**

**June 2022 – August 2022**

- Analysed diverse datasets, including a massive table of 50 billion rows using **SQL** and **Python**.
- Resolved multiple business concerns regarding claims adjudication using Microsoft **Excel** and **Power BI**.
- Collaborated with a team of analysts to solve claim related business problems using **Jira**.

**Part-Time Freelance Programmer – Indianapolis, IN**

**Database System and Analytics Engineer**

**October 2019 – June 2022**

- Developed 3 comprehensive databases with integration, automation, analytics, and security measures using **GAS**.
- Involved over 1,500 hours on meticulous design, testing, development, and issue resolution.
- Learned business communication by gathering valuable client feedback.

**Nordstrom – Indianapolis, IN**

**Sales Associate and Merchandise Support**

**July 2018 – January 2020**

- Managed inventory accuracy, provided customer assistance, ran the register operations, and stocked shelves.

## PERSONAL EXPERIENCE

---

**Data Analysis & Migration**

- Expertise in analysing large datasets using **Power BI**, **Tableau**, **Python**, and **R** to draw key insights and leverage data for decision-making.
- Proficiency in data migration across different database systems using tools like **SQL**, **Power Query**, and **Python**.

**Database Creation & Integration**

- Proficiency in designing and building functional databases using software such as **MongoDB**, **MySQL**, **Oracle**, and **GAS** while keeping scalability and efficiency in mind.
- Experience in integrating databases with external applications using software like **ReactJS**, **NodeJS**, and **Python**.

## EDUCATION

---

**Purdue University | Indianapolis, IN**

Bachelor's Degree in Applied Computer Science

**May 2023**

Cumulative GPA: 3.5

## CERTIFICATIONS

---

- **Data Analysis** by Microsoft ~ November 2023
- **Business Analysis** by Microsoft ~ November 2023
- **Generative AI** by Microsoft ~ November 2023
- **Project Management** by Microsoft ~ November 2023
- **Software Development** by Microsoft ~ November 2023
- **LambdaTest Software Testing** ~ November 2023
